

duoDorT

## Triple Point

$$\binom{d}{3} = \frac{d(d-1)(d-2)}{6}$$

**duoDorT** are **Kate Halsall** and **Semra Kurutaç** and was formed in 2003 to specialise in contemporary music combining the powers of piano, keyboard and electronics in any combination. The name duoDorT is a fusion of our combined British and Turkish roots. Duo, meaning a partnership of two players and dort (or dört in Turkish) translating as the number four; two pianists, four hands.

The triple point of a substance is the temperature and pressure at which three phases (for example, gas, liquid and solid) of that substance coexist in thermodynamic equilibrium. Our musical interpretation is a combination of acoustic, electronic, sequenced and prepared sounds.

**duoDorT** would like to thank all the composers involved, for their music and support and help in making this album.
